

Community Animal Rescue and Care Proposal

Fictional test document — for software testing only

Applicant: Happy Tails Animal Rescue

Project duration: 1 April 2027 – 31 March 2028

Funding requested: ■8,50,000

Project objective

Provide coordinated food, basic veterinary care and vaccination support for rescued and community animals in the fictional service area of Greenfield District.

Planned activities

1. Purchase and distribute animal food based on documented need.
2. Arrange veterinary consultations and emergency referrals.
3. Conduct vaccination and sterilization drives with qualified veterinary partners.
4. Maintain animal intake, treatment and adoption records.
5. Publish periodic donation and expenditure summaries.

Illustrative targets

Support 200 animals with food; provide 120 veterinary consultations; administer 180 vaccinations; support 50 sterilization procedures; and maintain complete records for all project-funded activities.

Monitoring

Progress will be tracked using dated service records, veterinary invoices, donation ledgers and quarterly expenditure summaries. Targets are planned outputs and should not be represented as achieved results.
